It is proper to add in the corps of the active of the Sential set of the corps of engineers, under the bind altitude of the properties of the sential properties. It is proper to add in the corps of the corps of engineers, under the connection that the runners now after regarding the equipment of monitors and interested, as also for the general public; and any paper of document of the corps of engineers, under the active of the sential properties. It is proper to add in the corps of the corps of engineers, under the properties. It is proper to add in the corps of the corps of engineers the major and the corps of the connection that the runners are worked to the corps of the corps of engineers, the properties which would be entirely and the corps of the connection that

The Democratic oneans are shouling outly over their alctory in New York. It was carried principally through the efforts and paculiar genius of John Morrissey. The x-shoulder-bitter seems to be the leader of the party at the present time. Why not run tim for the Presidency?

which 84. Louisans set up that their city is the project place for a mint.

The political accessal of all shades of opinion, and the religious organs of nearly all denominations unequivocally denounce the summary excention of the Virginius captives as a wanton piere of brunality. The cold and cowardly murder of these people has shocked the contibilities of the whole country, anderested a profound sympathy is behalf of the pulriots and their cause, which may at any moment find very rangible and substantial expression.

The pages of each in

eries in Cuba to forget its characteristic con-servatism and declare that the friends of the Cuban patriots will need neither men nor money in the future, it is apparent that the

THE FIRST EFFORT OF CONDESS, when it is sentless, should be to device ways and means to reflect the manufacturing industries of the country, and thereby return to employment the thousands of men who are now unfortunately out of work. Every day that the mechanic and the fall over remain in enforced idences is a direct best to the country for which nothing can possibly compensate. The financial problem should be discussed and settled solely from this standpoint. It should, in the future, be placed beyond the power of the railroad gamblers to strike down the vital Industries of the country whenever they please.

please.

COMMENTING upon the late county elec-tions in Illinois the Chicago Tribine explains that the Farmers or anti-Menopolists opposed both the Democratic and Republican parties, and adds that "the result is an iodication or a general wiplug out of old party lines in Illi-nois, as well as in Wisconsin and Lova." This is very fine talk, and no doubt counds agreeable to the sure of these whose dearest hope is that the unsertion may be true; but the truth is that when national issues are brought to bear in count future context the old party lines withe drawn as strictly as

respondents like M. Interest, in regard to affect a ffecting the District of Columbia as-ey are in the general political questions of

CANALS FOR IRRIGATION AND FOR NAVIGATION.
On the 20th ultimo a convention was held at Denver, Colorado, composed of delegates from all the States and Territories west of Minnesetta, called for the purpose of considering the subject of irrigation in connection with agriculture. After an Interchange of these generalizes apparently. iews by those gentlemen who apparently and considerable experience, it was agreed

where by those gentlement are agreed upon and resolved to present to Congress a pelition, embodying the views of the convention, showing that millions of arres of the public lands, now interly worthless, would, by a proper system of irrigation, be fertilized and brought into cultivation, and thereby made to produce valuable crops, and also be of incalculable hencelt to the mining interests, requiring water for their works. The petitloners propose that these several States and Territories shall undertake the construction of the necessary works for irrigation, such as reservoirs, feeders and canals, and that Congress shall give them, for the purpose of carrying out such works, all the public lands lying within their respective boundaries.

The question of Irrigation has become one of great importance to those States and Territories.

was carried principally through the chorts and paculiar genius of John Morriseey. The ex-shoulder-hitter seems to be the leader of the party at the present time. Why not run him for the Presidency?

A TEXAS EDITOR propose to place all the leads to the country in the middle of the Attaquas prairies and then blow shem up with gumpowder. He is of the opinion that he can regulate the finances of the country by this action in a satisfactory manner. Hipproposition is about an senable as the average of those submitted by the country press.

St. Lotis wants a mint—not a mint juler or a smach—but a United States mint for the coincey of gold and silver. The digadrantage under which she haters in the realization of thus want, is that own hard money is not made of terms. If that metal were used for the winds of feet lower than the lower is the realization of the want, is that own hard work similar in character has been recently constructed in Italy—namely, the proper place for a mint.

The POLITICAL ACKNALS of all shades of opinion, and the religious, and the religious, and the committed by the country lay the proper place for a mint.

The POLITICAL ACKNALS of all shades of opinion, and the religious of the copinion, and the religious of pollution, and the religious of pollution and sale that the religious of the proper place for a mint.

The POLITICAL ACKNALS of all shades of opinion, and the religious of the political special political special and process of political and process of political and process of political and process of political political special political special political special may be proposed to the political special pol

Caban patriots will need neither men nor money in the future, it is apparent that the wountry is effect to its profoundest depths with a determination that the outrages shall be averaged. But the Post should remember that caim and dispatsionate discussion of the subject is imperatively demanded in view of the grave results which impend.

WE print below the estatement of the mayor that caim and dispatsionate discussion of the grave results which impend.

WE LEARLY from the Ascension Leader that fifteen persons have been murdered in Iberia parish, La., lately by the Democratic vigiliance committee, and still the people of that estimate the results of the subject of the propose that another committee to exterminate the trigibants shall be organized. It is of the opinion that when this is done the Iberians may become elvilled. Such logic as this is simply include, but it is indeed and that the people where become so familiarized with misture in the label and as to make its abhortent results the authert of every-day joine.

The first preparation of Condess, when it is supply the propose of the conservative party—not allegations made by your speels correspondent on the wounding of a gentleman stated in your paper—which occurred at night the exception of the wounding of a gentleman stated in your paper—which occurred at night the exception of the wounding of a gentleman stated in your paper—which occurred at night the condition of the conservative party—not allegation for the conservative party—not allegated that the eventlement of the mayor with the committee. on duty all day, and went in person with many colored men, who complained that they could not vote, and found that they had not been re-gistered, in addition, none were thrown out by needless obstructions, in proof of which I subgistered; in sublition, none were thrown out by needless obstructions, in proof of which I subjoin the following: The colored voic east in Norfolk in the municipal ejection of May, 1872, was
"as; the same vote cast on Tuesday, the 4th of
November, was 1,255—showing a dedicine; of
only nine votes. Trusting to your sense of justice and love of can lor for the insertion of this
note in vimilication of our city, I remain yours,
ale,
Mayor of Norfolk,

A DISPATOR to the Tribune from this city

A rispartin to the Tribure from this city ages;

"The Chronicle to day, in a beautiful article on the improvements mane by the Board of Public Works, details with considerable minuteness the injury and conspicious of the changes. The article, however, shows that there is no certainly with regard to the debt which Congress decreed should not exceed \$10,000,000. In the significant tables of figures printed a short time and the flact tables of figures printed a short time and the flact tables of the printed as baret time and the actual to the control of the city was stated at \$0.907,201. The Caractel pitchs table in which the debts of twelve cities and the average rate of taxation are given, in which the debt of the taxation are given, in which the debt of the debt of the city was stated at \$0.907,201. The Caractel pitch is the city of the compression.

The figures in the Representatives were official and correct. Why will the Tribure corre-

and correct. Why will the Tribune corre spondent base his dispatches upon blundering and irresponsible statements?

dispassionate criticism is needed, but unjust or prejudiced democlation of the celebration will result injuriously to the people of every section of the country. The idea of such a celebration on the hundredth anniversary of our nation's hirth was grand and patriotic in its conception, and should not be roined in its execution. Let us show the world that while we may rank with the youngest nations of the earth we are yet entitled to consideration as one of the most progressive.

THE PAPER founded by Horace Greeley, replying to an old subscriber who takes it to task for its vilialmous course in the late Presidential campaign, says: "We did not suppose that after the Credit Mobilier exposure, the back pay bill, the Londsana investigation, the District of Columbia frands, &c., &r., any man would be found to bilind, so doll, or so stupidly obstinate, as to persist in calling the charges of the Presidential campaign calumny and misrepresentations." The above extract only shows that the Tribuse has not yet given up its policy of defamation, and slander. What "frands" have been proven in the District of Columbia? A Congress committee spent nearly four months in taking testimony and investigating the charges made by an unaccupulous gang in this city, and at the end of it Congress rendered a vertilet of "not guilty," and appropriated a large sum of money to carry on the work that had been undertaken. But the high-toned editor, Mr. Whitelaw Reid, who, in 1864, accepted a tomothly stipend to defame Mr. Lincoln in the interest of Mr. Chase, still sticks to his original stander. Whitelaw Reid is a man who has no character for political bonesty or political principle among those who know him. THE PAPER founded by Horace Greek

from Connecticut. He had, therefore, a custural aptiness for public life, but his nature was too quick and mo-commodating for the slow routine of political and legal promotion. From Kuneas be west to Chicago and become noted at once as a brilliant writer on ourrent topics, doing valuable work for both the Times and Tribone, and in 1868 lie was sent by the latter great journal to make the daily resume and slory of the famous constitutional convention which has done so much to change the relations of the minority to the Government. His steady.

being shocked the embilities of the whole country, and created a profound sympathy is behalf of the patriots and their cause, which may at any moment find cry rangible and substantial expression.

The paring of cx-President Johnson—an extended synopsis of which was printed in the Enrunateax yesterday—in reply to Judge Advocate General Hol's charge-published some time ago, leaves the whole subject in as much doubt as ever Judge Holt says one thing and Mr. Johnson another. Strong, but will unsatifactory, does unneitary and other critical expression both sides—not strong enough, however, to settle the question beyons all dispute.

When such a journal as the New York Remain Pest is induced by the recent batcheries in Cuba to forget its characteristic conservation and declare that the friends of the stream of the constitution of these projected irrigating canal, either by the Federal, State or Territorial governments.

THE VIRGINIA ELECTION PRAUDS.

or examine the reports of the working of the Anglo-Indian system before making a final decision as to the construction of these projected irrigating canal, either by the Federal, State or Territorial governments.

THE VIRGINIA ELECTION FRAUDS.
We print below the statement of the mayor of Norfolk regarding the manner in which the late election was conducted in that city. clearness of statement, with a cook, critical edge, never far out of the way in prognostication; and all that he wrote could be read with case, pleasure and instruction. Some of his obstrais work displayed a maturity of thought which our public men might have similated to advantage. His personal address took the edge off the truth and frankness of his public duty, and he was warm in his friendships and pure in his patriottem.

Mr. Knowiton was restrained from a doubt of the observed health from centering into the matri-

Mr. Bowton was resented from a control by his physical health from entering into the matri monial alliance which he formed just five monias alliance which he formed just five mode ago with the lady whose love he had obtaine several years before while a student-at-law; her father's office. His immensibility to fatigue and raing spirits, together with his assured post tion in journalism and the confidence of his employers, jed bins to bettere that he had a fature and rejects venture mont the resilization of the deand might venture upon the realiza attempt to continue his occupation during if warm months of last summer, made him an it valid. He sought relief from medical spring and horseback exercises without avail. Near two months ago he was confined to his roo

wo months ago he was confined to his room and soon afterwards to his bod, illustrated where all the white, and he chaffed under the physician's insulations as on his work all the white, and he chaffed under the physician's inspection of real. One week ago he said with considence that he should be out in two days, and his employers were sexuedy kept advised of his situation. His strength ran out spitchty. For a few days his friends had a little hope. Festerday he died quietly, after two days of suffering, against which he entered no protect, and his last hours were marked by a gentleness and goodness which made his co-hacters were and realiza the excellence which, in the tunniliums life of public affair, is retained by serry emulous and lofty spirit. Sarrounded by smithely and lowing friends, his thoughts often wandered to the place where he had worked eith such devotion, and a few hours before his death, when he was almost apreciales, he recognition. with such devotion, and a few hours before his death, when he was almost apecchicas, he reconized a fellow-correspondent, and said: "How are they all on the How?" He endeavored to mame over the correspondents, and his last articulate words, though his eyes were all the while on his wife, were directed to the newspaper areas shot the fellowships there. So passed away a galant young spirit, equal in his health to the best in any department of public usefulness. His memory will be preserved amought the young men who continues after him to do the right as God gives them to see the right, and go on for the nation and the levation of man.

Mr. Knowiton's funeral will take place next relations the public preserved with said of this profession: Messes, Boyston, Worden, Townsend, Prider, His publicaerre will be all of his profession: Messes, Boyston, Worden, Townsend, and Prait. The correspondents will ment at noon to-day to make some ex-
